Eddie,

I will contact PECCO and ask if they have received any analysis information from EQ Detroit.

Have a great day.

Many Thanks,

Tim Aulick

Mr. Aulick,

I am following up on the request for nitric acid and calcium nitrate concentrations in the transferred waste material. Please send me the test results or the contact information on the lab that did the analyses.

Best Regards,

Eddie Chow, PE

Mr. Aulick,

I need the exact concentrations of the nitric acid and calcium nitrate in the transferred waste material. The test results could be from Aulick, PECCO, EQ Detroit, or the lab that did the testings.

Thank you.

Best Regards,

Eddie Chow, PE

Hi Eddie,

I spoke with PECCO, they transported the material to EQ Detroit, Inc. for disposal. I have attached the MSDS generated for the material that went to EQ Detroit, Inc. Would the profile be from EQ Detroit? If so, I can contact them. I apologize for this taking time.

Thanks,

Tim Aulick
